

The CLASSROOM CHRONICLE

— CHANGING LIVES THROUGH LEARNING —

Volume 1 • Issue 1 • July 2026

Welcome to The Classroom Chronicle

We are delighted to welcome you to the very first edition of The Classroom Chronicle, a new newsletter from Children Create History School in San Andrés Itzapa, Guatemala.

Our mission is simple: to help children who are struggling in school discover that they are capable of learning, growing, and creating brighter futures for themselves and their families.

Over the past several years, friends, supporters, and members of our community have asked for an easier way to stay connected with the work taking place at the school. This newsletter is our answer.

Each issue will bring you inside our classrooms to meet the remarkable children we serve, introduce you to the dedicated people who make this work possible, and share the stories behind our programs, from providing daily nutritious lunches to building classroom libraries through our Book Box Project.

We'll also celebrate student successes, report on new initiatives, and occasionally explore the educational challenges facing children throughout Guatemala.

Another Box of Opportunity Is Headed to Guatemala

Every shipment carries books and school supplies for Guatemalan students.

Behind every successful lesson is a community of people who believe that every child deserves the opportunity to learn. Throughout the year, friends of Children Create History School generously donate books, classroom supplies, educational games, and learning materials that help our teachers create an engaging place for students to grow.

Our latest shipment included a wonderful collection of school supplies donated by local elementary school teacher Himmler Aleman, whose efforts will soon brighten classrooms in Guatemala. Thank you, Himmler, for all of your support.

Donations like these remind us that changing lives doesn't always require grand gestures. Sometimes it begins with a box of crayons, a favorite children's book, or a handful of pencils.

To everyone who has contributed supplies, packed boxes, offered encouragement, or supported our mission, thank you. Your generosity is helping create a classroom where every child has the tools to discover their potential.

JOIN US ON FACEBOOK

Scan to follow us

There is always something happening at Children Create History School, and we wanted a way to share those moments as they happen. That's why we recently launched our official Facebook page.

Throughout the month, you'll find classroom photos, student achievements, updates from Guatemala, Book Box shipments, volunteer activities, and stories that don't always make it into our newsletter. It's a wonderful way to stay connected with the children and see firsthand how your support is making a difference.

If you enjoy what you see, we hope you'll follow our page, like our posts, and share them with your family and friends. Every share introduces our mission to someone new and helps us build a larger community of supporters.

Together, we can bring more people into the story of changing lives through learning, one post at a time.

OUR DAILY LUNCH PROGRAM

One of the simplest ways we help children succeed is by making sure they don't have to learn on an empty stomach.

Every school day, our students receive a nutritious lunch prepared at the school. For many children, it is one of the healthiest meals they will eat all day. A good meal improves concentration, supports healthy development, and gives every child the energy to participate fully in class.

Thanks to the generosity of our supporters, no child is ever turned away because they cannot afford lunch. Together, we are nourishing both minds and bodies.

HOW YOU CAN HELP

Every child deserves the opportunity to succeed. Whether you follow us on Facebook, share our story with others, donate books or classroom supplies, or make a financial contribution, your support helps open doors to a brighter future for the children we serve.

Discover more about our programs, read the latest news, view our photo gallery, and learn how you can help us change lives through learning.
